| HÖGANÄS 290 |

The new Höganäs 2-series consists of top-quality Swedish-made office chairs. We have used our Småland ingenuity to design and package a fantastic sitting experience, along with a sleek, modern design. At the most attractive price possible. A chair for everyone, but customised for you!

The 290 model has been developed for customers who need our highest and widest backrest. The standard version of the 290 is equipped with a large seat and a high back. But as always, there is nothing static about the new Höganäs series. You can of course choose to replace the seat with a medium-sized one, and use add-ons that create the exact office chair that you need.

In order to open up your body and facilitate both your breathing and circulation, we recommend that you sit in a reclined position with full support for the back. In this position, an add-on such as a neck rest may be much appreciated.

THE TRIANGLE CUSHION

The triangle cushion not only provides a neat and elaborate detail, but also fulfils a purpose. It offers relaxation for the upper back while providing mild pressure and support between your shoulder blades. This support counteracts tension headaches and tension in the thoracic spine.

LUMBAR SUPPORT CUSHION

Add our inflatable lumbar support cushion to further raise the comfort level.

ACTIVE SITTING

To activate the body, we advise you to use the chair in the unlocked position. This means that the recline mechanism and seat follow the body's movements, offering you active sitting.

PERFORMANCE	ART.NO
