**NOTE** All cables must be connected to the control box in this specific sequence before you plug in the power.

**OBS** Alla kablar måste vara inkopplade i styrboxen enligt denna specifika ordning innan stativet strömsätts.

**ACHTUNG** Alle Kabel müssen in dieser Reihenfolge vor dem Einschalten des Stativs an die Steuerbox angeschlossen werden.

17.

**NOTE!** This only applies if you have a frame with a built-in sensor activated.

If any of the cables connected to the control box moves, the built-in sensor activates. Therefore, the cables must be fixed to the table top with included cable clamps.

**OBS!** Detta gäller endast om du har ett stativ med inbyggd sensor aktiverad.

Om någon av kablarna som är inkopplade i styrboxen rör sig utlöses den inbyggda sensorn. Därför måste kablarna vara fixerade i bordsskivan med medföljande kabelklämmor.

**ACHTUNG!** Folgendes ist nur gültig, wenn Ihr Gestell mit integriertem Sensor ausgestattet ist und dieser aktiviert ist.

Wenn sich eines der an die Steuerbox angeschlossenen Kabel bewegt, wird der eingebaute Sensor aktiviert. Daher müssen die Kabel mit den mitgelieferten Kabelklemmen an der Tischplatte befestigt werden.
