| HÖGANÄS 280 |

The new Höganäs 2-series consists of top-quality Swedish-made office chairs. We have used our Småland ingenuity to design and package a fantastic sitting experience, along with a sleek, modern design. At the most attractive price possible. A chair for everyone, but customised for you!

The 280 model is the 2-series intermediate chair. Like all the other models, the chair's every detail has been carefully selected and is top class. In its basic form, the 280 is equipped with a medium-sized seat and back, but as we are all shaped differently, you can of course choose to adjust both the seat and back as you so desire.

With all Höganäs models, you can also adjust the armrest. If you want to get the very best out of your office chair, and at the most affordable price, we recommend armrest 2D. It is height and width-adjustable. Combine it with our inflatable lumbar support cushion to further increase the comfort level. Or take a look at other add-ons to create the exact office chair that you need.

THE TRIANGLE CUSHION

The triangle cushion not only provides a neat and elaborate detail, but also fulfils a purpose. It offers relaxation for the upper back while providing mild pressure and support between your shoulder blades. This support counteracts tension headaches and tension in the thoracic spine.

LUMBAR SUPPORT CUSHION

Add our inflatable lumbar support cushion to further raise the comfort level.

ACTIVE SITTING

To activate the body, we advise you to use the chair in the unlocked position. This means that the recline mechanism and seat follow the body's movements, offering you active sitting.
