

| SURF SYNKRON |

LANAB GROUP:

| SURF SYNKRON |

Surf is a chair that combines flexibility and simplicity without compromising on ergonomic thinking and comfort.

Surf Synkron provides maximum support of the pelvis, lower back and thoracic spine, while at the same time there is the possibility to lean back and open up the hip joint. The synchro cradle is controlled through the body's natural movements both in backward and forward-leaning working positions at the desk.

NECK REST

The neck rest is adjustable in height, depth and angle.

ARMREST

The armrests can be raised and lowered, angled, width and adjustable in lateral and depth.

ADJUSTABLE BACK & SEAT

The back is adjustable in height, which means that the lower back can adapt to your back. The seat is adjustable in depth.

SYNCHRONIC

The seat and back are angled synchronously, i.e. in a forward-leaning sitting position, the seat is also angled forward, and in a backward-leaning sitting position, the hip angle is opened to stimulate circulation in the body. Adjustable swing resistance, adjustable according to your body weight. The swing is lockable.

PERFORMANCE	ART.NO
Synkron High	OLS 250 HSXXX
Synkron High with neck rest	OLS 250 HSNXXX
Synkron Mid	OLS 250 MSXXX

ACCESSORIES	QUANTITY	ART.NO
